

WP Photo Seller – Basic Setup after Installation

After installing and activating the plugin go to the “**Settings**” menu from WP Photo Seller main menu to update information for shopping cart.

General Setting:

Select a base country from the list where your shop at, so if you decide to apply Tax and Shipping Charge for your prints the shopping cart can calculate the cost correctly.

Zip/Post Code is optional.

By default **International sales** is set to “**No**”. If you are only selling Digital photos/images then you can keep it that way as no shipping involved for digital files. But if you are selling Prints then check “**Yes**” and select either all or countries that you want to target only.

General Settings

Base Country: The country you are operating from. Required

Zip/Post Code:

International sales: Yes No
Select No if you only want to sell locally else select Yes. You can choose specific countries or all countries

Target Markets
 International: [Select](#) [All](#) [None](#)

- United States
- Andorra
- United Arab Emirates
- Afghanistan
- Antigua and Barbuda
- Anguilla
- Albania
- Armenia
- Netherlands Antilles
- Angola
- Antarctica
- Argentina
- American Samoa

Choose the **Currency** from the list for your payments. By default the **Currency Symbol** is set to “\$” but you can change it to anything like £, €, Kč etc.

Currency & Payments Settings

Currency: By default if you keep this field empty the '\$' sign will

Currency Symbol:

Payment Gateway Settings

If you are using **PayPal Standard Checkout** then select the box and enter your email address for PayPal.

Download Link Settings

You can add extra security to your digital products with WP Photo Seller. When customers purchase your digital photos they receive encrypted download links to

download the files. Depending on the hours you put in the **Duration of Download Link** field, your customers download link will stay active from the time they purchase and after that the links will expire automatically.

Download Link Settings

Duration of Download Link: (Hours) *The customer's encrypted download of their purchase.*

Page Settings

Thank You Page

After payment you can redirect your customers to a page where you can up sell or promote your other products, provide any further information or simply thank them for purchasing your product. Create a page first then select it from the drop down page lists and the plugin will redirect your customers to that page after the payment.

Thank You Page

The settings in this section are for the 'Thank You' page. This is the page where customers are redirected to after a successful purchase.

Thank You Page: *This page will be where your customers are redirected to after they have made a payment via PayPal.*

Terms and Conditions

By default, “**Terms and Condition**” is selected “No.” If you want to apply terms and conditions on the shopping cart page before your customers checkout, then select “Yes” and choose your terms and conditions page from the drop-down list and that will be used at the checkout page as Terms and Conditions.

Terms and Conditions

The settings in this section are for the 'Terms and Conditions' page. This is the page where you can specify any disclaimers or abide by.

Terms & Conditions: *Choose whether you want to display a Terms and Conditions page on your site.*

Terms & Conditions Page: *This page will be used as Terms and Conditions page.*
