

WP Photo Seller – How to add an attachment to a photo for delivery

This feature lets you attach any file with a photo that gets delivered when someone purchase the item. This is useful if you wanted to deliver additional files (example: a Photoshop file, an Adobe Illustrator file) with a particular photo.

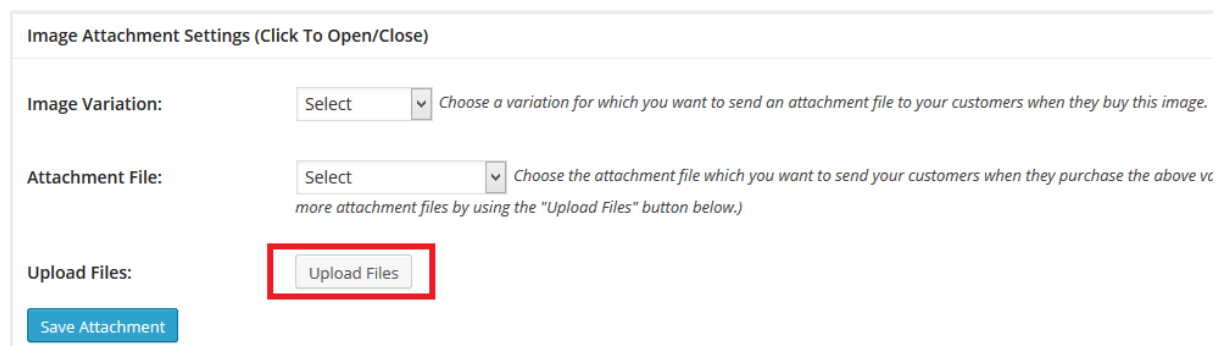

Go to **WP Photo Seller -> Gallery -> Existing Galleries** and open a gallery you wish to edit. Scroll down to **Gallery Images section**, select an image you wish to add an attachment to and click on **edit**.

In the image edit screen, you will see a section named **Image Attachment Settings**.

The screenshot shows a settings panel for a gallery named "Pots Variations". It includes fields for "Photo Seller Gallery Name", "Tax Amount (%)", "Digital Variations", "Physical Variations", and "Image Attachment". The "Image Attachment" section is highlighted with a red border and contains the text "Image Attachment Settings (Click To Open/Close)".

Image Attachment Settings

The "Image Attachment Settings" form includes the following fields and buttons:

- Image Variation:** A dropdown menu with "Select" and a downward arrow. Description: "Choose a variation for which you want to send an attachment file to your customers when they buy this image."
- Attachment File:** A dropdown menu with "Select" and a downward arrow. Description: "Choose the attachment file which you want to send your customers when they purchase the above variation. (You can upload more attachment files by using the 'Upload Files' button below.)"
- Upload Files:** A button labeled "Upload Files" highlighted with a red border.
- Save Attachment:** A blue button at the bottom left.

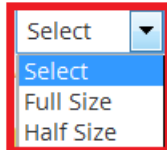

Use the "Upload Files" button to upload attachment files (you can upload as many files as you want). All your uploaded files will become available in the "Attachment File" dropdown menu. This allows you to attach different files to different variations of the photo/image.

Image Variation

First select what Image Variation you want (this is from the price list that you created for the photo gallery).

- Full Size
- Half Size

Image Variation:

A dropdown menu with a red border. The menu is open, showing three options: 'Select' (highlighted in blue), 'Full Size', and 'Half Size'. The text 'Select' is also visible above the dropdown arrow.

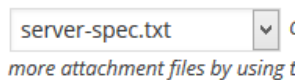

Attachment File

Select the file from the drop down menu and click on **Save Attachment** button.

Image Variation:

A dropdown menu with a blue border. The selected option is 'High res'. To the right of the dropdown is the text 'Choose a v'.

Attachment File:

A dropdown menu with a grey border. The selected option is 'server-spec.txt'. To the right of the dropdown is the text 'more attachment files by using t'.

Upload Files:

A grey button with the text 'Upload Files'.

Save Attachment

After you add the attachment you will see the file(s) displayed in the table below.

Currently Configured Image/Variation Attachments:

ID	Image Variation	Attachment File		
3829	Full Size	images.zip	Edit	Delete

When the customer purchases the photo they will receive the corresponding attachment file.
