

How to Install WP Photo Seller Plugin

After purchasing WP Photo Seller you can install the plugin in two ways.

Automatic Installation

Automatic installation is the easiest option as WordPress handles the entire file transfers itself. For Automatic Installation;

- Download the **WP-Photo-Seller.zip** file to your computer first.
- Log in to the WordPress admin panel of the site that you want to install the plugin.
- Under the Dashboard menus navigate to **Plugins** → **Add New**

- Click “**Upload**” link from the “Install Plugins” page.

Install Plugins

Search [Upload](#) | [Featured](#) | [Popular](#) | [Newest](#) | [Favorites](#)

- Click on “**Choose file**” to locate **WP-Photo-Seller.zip** file from your computer and then press “**Install Now**” button.

Install Plugins

Search | [Upload](#) | [Featured](#) | [Popular](#) | [Newest](#) | [Favorites](#)

Install a plugin in .zip format

If you have a plugin in a .zip format, you may install it by uploading it here.

- Once WordPress finishes unpacking and installing click on “**Activate Plugin**” to activate WP Photo Seller Plugin.

Unpacking the package...

Installing the plugin...

Plugin installed successfully.

Manual Installation

To install the WP Photo Seller plugin manually you will need a FTP Client application like FileZilla, CyberDuck etc. For manual Installation;

- Download the **WP-Photo-Seller.zip** file to your computer first.
- Extract/Unzip the file.
- Upload the folder **WP Photo Seller** to the */wp-content/plugins* directory by an ftp client application.
- Login in to the WordPress admin panel.
- From the Dashboard menus navigate to **Plugins → Installed Plugins**

- and activate the plugin
