

WP Photo Seller – Tax Settings

With WP Photo Seller you can apply Tax for your Digital Photos and Prints.

By Default “Apply Tax” and “Apply Shipping” is set to “No” inside **Price Lists**.

Tax and Shipping	
Apply Tax:	<input type="radio"/> Yes <input checked="" type="radio"/> No <i>Specify whether you wish to charge tax for your product</i>
Apply Shipping:	<input type="radio"/> Yes <input checked="" type="radio"/> No <i>Specify whether you wish to apply shipping for your physical prints</i>

To apply Tax you will need to check “Apply Tax” to “Yes” and save the price list. Go to Tax menu under the WP Photo Seller main menu to configure the Tax Settings.

Tax Settings

Tax Settings has the following options:

- Flat Rate
- State/Regional Specific Tax
- Use PayPal Profile Based Tax

State/Regional Specific Tax

State/Regional Specific Tax option allows you specify tax based on Countries and States (Only for America and Canada).

You can also charge Tax on shipping.

Regional Tax Rates

Country: Rate: % [Add Regional Tax Rate](#)

Location	Rate	Tax Shipping	Actions
United States	15.00%	no	Delete
Australia	10.00%	no	Delete
Canada	10.00%	no	Delete

Once you specify the Tax rates, your customers will be given an option at the checkout to choose their billing country or state to calculate tax on their purchase.

Use PayPal Profile Based Tax

If you have already configured tax settings in your PayPal profile then check this box. At the checkout the plugin will collect tax settings from your Paypal profile and apply it to the shopping cart.

Do Not Apply Tax

If you are using multiple price lists for your galleries and “Apply Tax” is set to yes for all or some but you don’t want to charge tax anymore then rather than going through all the price lists individually to set them to “No” you can simply select this option and no tax will be charged at the checkout.
