

WP Photo Seller – How to customize watermark features?

With WP Photo Seller plugin you can customize watermark for individual galleries separately. To setup/customize watermark for your images, go to the **Gallery** menu from the WP Photo Seller main menu.

From the **Gallery Management** page edit the gallery that you want to setup/customise the watermark for.

Existing Galleries				
Id	Gallery Name	Created at	Updated at	
1	Animals	2013-09-13 00:18:38	2013-10-10 03:22:35	Edit Delete
3	Bobs Wedding	2013-10-10 00:37:45	2013-10-10 03:24:48	Edit Delete
4	Potraits	2013-10-10 03:35:03	2013-10-10 03:36:27	Edit Delete

Inside the **Gallery Settings** enter your company name, website address etc. in the “Watermark text” box.

Watermark Text:	<input type="text" value="Tips and Tricks HQ"/>	<i>The text which you enter here will appear as a being previewed by your customers.</i> + More Info
Watermark Text Placement:	<input type="text" value="Centered"/> <input type="button" value="v"/>	<i>Choose the placement location of your watermark text</i>

By default Watermark is displayed at the centre of the image.

When someone opens an image from the gallery for a preview it will appear with the watermark text at the centre.

By default the width of the preview image is set to 600px and the watermark text font size to 14 which can be customizable as well.

Watermarked Photo Width (px):	<input type="text" value="600"/>	<i>Enter a desired width size</i> + More Info
Watermark Font Size (px):	<input type="text" value="14"/>	<i>Set the font size of the watermark text</i> + More Info

Once you have customized the watermark settings, save the gallery.
